Read and take notes: The more you do over summer, the easier it will be during the school year. All of this is required reading. Do it over the summer or do it during the school year. The choice is yours. Choose wisely. Media Center books will not likely be available over the summer.

- II. Paper 1 Rights and Protests; We only have a class set of this book. So, if you can afford to buy your own, you should. We will be using the whole book.

A.

III. Paper 2: Authoritarian States

- A. Book On the Origins of War by Donald Kagan - We do have enough copies in the Media Center. But, if you can afford the few dollars it costs to buy a used copy, I would recommend that you do so that you can mark in it.

- B.
- C. Ch4 The Second World War - to address Germany as an authoritarian state
- D. Parts of Ch5 The Cuban Missile Crisis - to address Cuba as an authoritarian state. (All of Ch5 to address topics for the Cold War unit)
- E. Book [A History of Latin America](#) by Benjamin Keen and Keith Haynes, available in our Media Center, though you might not be able to check it out now.

If you want to buy your own used copy, they can be found for a few dollars. We will use Ch17 The Cuban Revolution
